• PROCESS FLOW OF READINESS ASSESSMENT (RA) AND INTERVENTION PROGRAMME
Industry4WRD Readiness Assessment (RA) is a comprehensive programme to help firms assess their capabilities and readiness to adopt Industry 4.0 technologies and processes, using a pre-determined set of indicators to understand their present capabilities and gaps.

**READINESS ASSESSMENT (RA) OBJECTIVES**

**01**
To improve productivity and profitability

**02**
To enhance organisational, management and production capabilities

**03**
To enable better quality monitoring

Industry4WRD Readiness Assessment (RA) is a comprehensive programme to help firms assess their capabilities and readiness to adopt Industry 4.0 technologies and processes, using a pre-determined set of indicators to understand their present capabilities and gaps.

- Determine their state of readiness in the adoption of Industry 4.0 technologies
- Identify the gaps and areas of improvement for Industry 4.0 adoption as well as opportunities for productivity improvement and growth
- Develop feasible strategies and plans to perform outcome-based intervention projects
